# ColorHunter

## Carving a colorful world

Technology Introduction + Product Family

## Challenges

Most crimes occur at night, which provides more convenient conditions for criminals. In video security, color-related information is crucial to identify events details especially at night. But in the low light, people, vehicles can easily hide in the background, which makes it difficult to distinguish critical elements.

## What's ColorHunter 2.0

Uniview is committed to enhancing users' image experience in dark environments, ensuring they can obtain a 24/7 colorful and sharp image. Building upon the success of ColorHunter low-light imaging technology, Uniview has now introduced the more inclusive and powerful ColorHunter 2.0 technology. This technology is designed to capture deeper, wider, and finer colors in various dark environments, delivering vivid and detailed videos for everyone and providing a more flexible user experience.

## ColorHunter with Wise-ISP

### 5th Gen NightView Tech First in Industry

The hardware has reached the upper limit of image enhancement

StarLight  
**1-Gen**

FSI  
F2.0

IR Light  
**2-Gen**

BSI  
F1.6

LightHunter  
**3-Gen**

BSI  
F1.2

ColorHunter  
**4-Gen**

1/1.8  
BSI  
F1.0

Here comes  
**5th-Gen**  
Nightview Tech

ColorHunter  
**Wise-ISP**

**First & Exclusive in Industry**

## Great Image Improvement Through Software

## Wise-ISP For Extreme Image Enhancement

Compared to the full-color technology of fourth-generation night vision in the industry, Wise-ISP technology delivers brighter images, more vivid colors, and significantly less noise and smearing, even in extremely low light conditions without activating LED lights.

## Secrets behind Wise-ISP

### UNV Self-developed Large Model Engine

First & only in industry to apply model engine for image processing

**200+**  
*industrial scenarios covered*  
Billions of image training data

**Nightview**  
*main pain points*  
Solved main pain points of nightview images

**15↑**  
*times*  
Faster training speed  
Rapid algorithm upgrade

## Value

### Full-Screen Full-Color at Night

Supplemental lighting can cause a loss of color information at a distance. With Wise-ISP, every detail remains vividly colored, even from afar.

### Colorful Image Without LED on

Wise-ISP technology minimizes the sense of being monitored, and still get colorful image.

## Application Scenarios

Park

Farm (Rural areas)

Community

Alley/Streets  
(no lights)

## Product Family

**F1.0 Aperture**  
Increase 4X more  
light input than F2.0

**Up to 1/1.8\"/>**

**SIP Lite**  
Intrusion & crossline  
powered by human &  
vehicle detection

**Affordable Price**

**IPC2312LE-ADF28(40)KM-WP**

- 1/2.7" CMOS sensor
- 2MP 1920 × 1080 30 fps
- Color: 0.0003 lux @ F1.0
- 120dB true WDR
- Built-in mic & SD card slot
- Warm light up to 30m (98ft)
- SIP Lite
- IP67
- Wise-ISP night vision

**IPC2314LE-ADF28(40)KM-WP**

- 1/1.8" CMOS sensor
- 4MP 2688 × 1520 25 fps
- Color: 0.0003 lux @ F1.0
- 120dB true WDR
- Built-in mic & SD card slot
- Warm light up to 30m (98ft)
- SIP Lite
- IP67
- Wise-ISP night vision

**IPC2318LE-ADF28(40)KM-WP**

- 1/1.8" CMOS sensor
- 8MP 3840 × 2160 20 fps
- Color: 0.0003 lux @ F1.0
- 120dB true WDR
- Built-in mic & SD card slot
- Warm light up to 30m (98ft)
- SIP Lite
- IP67
- Wise-ISP night vision

**IPC3522LE-ADF28(40)K-WP**

- 1/2.7" CMOS sensor
- 2MP 1920 × 1080 30 fps
- Color: 0.0003 lux @ F1.0
- 120dB true WDR
- Built-in mic & SD card slot
- Warm light up to 30m (98ft)
- SIP Lite
- IP67 & IK10
- Wise-ISP night vision

**IPC3524LE-ADF28(40)K-WP**

- 1/1.8" CMOS sensor
- 4MP 2688 × 1520 25 fps
- Color: 0.0003 lux @ F1.0
- 120dB true WDR
- Built-in mic & SD card slot
- Warm light up to 30m (98ft)
- SIP Lite
- IP67 & IK10
- Wise-ISP night vision

**IPC3528LE-ADF28(40)K-WP**

- 1/1.8" CMOS sensor
- 8MP 3840 × 2160 20 fps
- Color: 0.0003 lux @ F1.0
- 120dB true WDR
- Built-in mic & SD card slot
- Warm light up to 30m (98ft)
- SIP Lite
- IP67 & IK10
- Wise-ISP night vision

**IPC3622LE-ADF28(40)K-WL**

- 1/2.7" CMOS sensor
- 2MP 1920 × 1080 30 fps
- Color: 0.0003 lux @ F1.0
- 120dB true WDR
- Built-in mic & SD card slot
- Warm light up to 30m (98ft)
- SIP Lite
- IP67
- Wise-ISP night vision

**IPC3624LE-ADF28(40)K-WP**

- 1/1.8" CMOS sensor
- 4MP 2688 × 1520 25 fps
- Color: 0.0003 lux @ F1.0
- 120dB true WDR
- Built-in mic & SD card slot
- Warm light up to 30m (98ft)
- SIP Lite
- IP67
- Wise-ISP night vision

**IPC3628LE-ADF28(40)K-WP**

- 1/1.8" CMOS sensor
- 8MP 3840 × 2160 20 fps
- Color: 0.0003 lux @ F1.0
- 120dB true WDR
- Built-in mic & SD card slot
- Warm light up to 30m (98ft)
- SIP Lite
- IP67
- Wise-ISP night vision

**IPC245LP-ADF40(60)KC-WP**

- 1/1.8" CMOS sensor
- 5MP 2880 × 1620 25 fps
- Color: 0.0003 lux @ F1.0
- 120dB true WDR
- Built-in mic & SD card slot
- Built-in speaker for Active Deterrence
- Warm light up to 50m (98ft)
- Audio/Alarm I/O
- SIP Lite
- IP67
- Wise-ISP night vision

### IPC2B14SE-ADF28(40)K-WP-I1

- 1/1.8" CMOS sensor
- 4MP 2688 × 1520 30 fps
- F1.0 aperture
- 130dB true WDR
- Built-in mic & SD card slot
- Warm light up to 40m (131ft)
- Audio/Alarm I/O
- SIP with color retrieval
- Auto Scene Match
- People counting
- IP67 & IK10
- Wise-ISP night vision

### IPC2B18SE-ADF28(40)K-WP-I1

- 1/1.2" CMOS sensor
- 8MP 3840 × 2160 30 fps
- F1.0 aperture
- 130dB true WDR
- Built-in mic & SD card slot
- Warm light up to 40m (131ft)
- Audio/Alarm I/O
- SIP with color retrieval
- Auto Scene Match
- People counting
- IP67 & IK10
- Wise-ISP night vision

### IPC3634SE-ADF28(40)K-WP-I1

- 1/1.8" CMOS sensor
- 4MP 2688 × 1520 30 fps
- F1.0 aperture
- 130dB true WDR
- Built-in mic & SD card slot
- Warm light up to 40m (131ft)
- Audio/Alarm I/O
- SIP with color retrieval
- Auto Scene Match
- People counting
- IP67 & IK10
- Wise-ISP night vision

### IPC3638SE-ADF28(40)K-WP-I1

- 1/1.2" CMOS sensor
- 8MP 3840 × 2160 30 fps
- F1.0 aperture
- 130dB true WDR
- Built-in mic & SD card slot
- Warm light up to 40m (131ft)
- Audio/Alarm I/O
- SIP with color retrieval
- Auto Scene Match
- People counting
- IP67 & IK10
- Wise-ISP night vision

### IPC264EA-AHDZ(X4)K-I1

- 1/1.8" CMOS sensor
- 4MP 2688 × 1520 60 fps
- P-Iris with aperture F1.6 Max
- 2.8-12mm/8-32mm VF lens
- 140dB true WDR
- Built-in 2 mics & SD card slot
- IR up to 120m (393.7ft)
- Audio/Alarm I/O
- Video metadata
- License plate capture
- IP67 & IK10
- Wise-ISP night vision

### IPC268EA-AHDZ(X4)K-I1

- 1/1.8" CMOS sensor
- 8MP 3840 × 2160 60 fps
- P-Iris with aperture F1.6 Max
- 2.8-12mm/8-32mm VF lens
- 140dB true WDR
- Built-in 2 mics & SD card slot
- IR up to 120m (393.7ft)
- Audio/Alarm I/O
- Video metadata
- License plate capture
- IP67 & IK10
- Wise-ISP night vision

### IPC3234EA-AHDZ(X4)K-I1

- 1/1.8" CMOS sensor
- 4MP 2688 × 1520 60 fps
- P-Iris with aperture F1.6 Max
- 2.8-12mm/8-32mm VF lens
- 140dB true WDR
- Built-in 2 mics & SD card slot
- IR up to 40m (131ft)
- Audio/Alarm I/O
- Video metadata
- License plate capture
- IP67 & IK10
- Wise-ISP night vision

### IPC3238EA-AHDZ(X4)K-I1

- 1/1.8" CMOS sensor
- 8MP 3840 × 2160 60 fps
- P-Iris with aperture F1.6 Max
- 2.8-12mm/8-32mm VF lens
- 140dB true WDR
- Built-in 2 mics & SD card slot
- IR up to 40m (131ft)
- Audio/Alarm I/O
- Video metadata
- License plate capture
- IP67 & IK10
- Wise-ISP night vision

# ColorHunter with Smart Dual Light

## Smart IR & Warm Light Switching, Adaptable to Various Scenarios

At night, when images are dark, most traditional IP cameras rely on IR lighting to capture images in low-light conditions. However, this only produces monotonous black-and-white images, making it difficult to capture clear details. While warm lighting provides color images, it increases power consumption and contributes to light pollution.

Users urgently need IP cameras that deliver colorful, energy-efficient, and environmentally friendly solutions. UNV ColorHunter with Smart Dual Light Technology, addresses these needs by intelligently and flexibly adjusting lighting according to the scene.

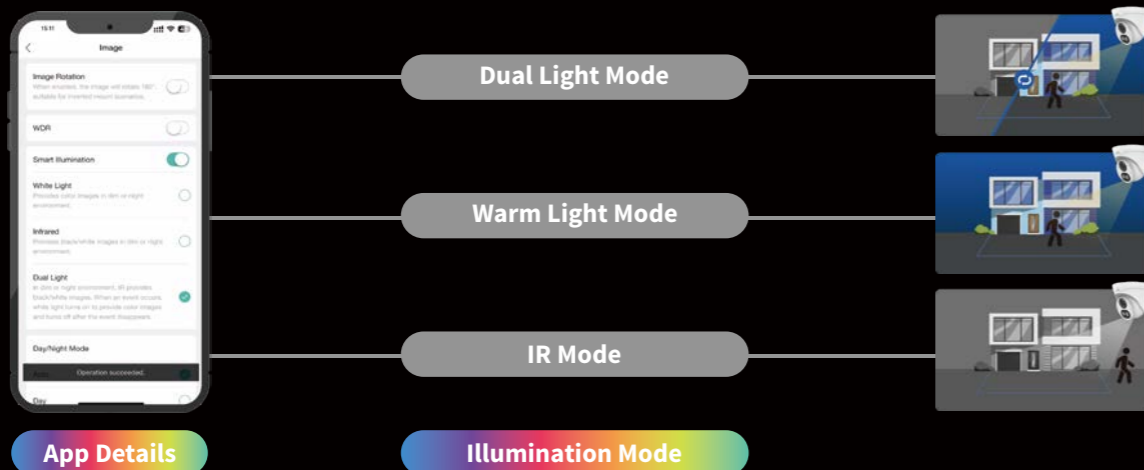

### Smart Illumination

Use Ultra Motion Detection technology for precise Human/Vehicle detection, enjoy color recording when target is detected, and invisible guardianship when no events.

### App

Remotely manage camera illumination anywhere, anytime.

### Ultra Motion Detection

Ultra Motion Detection can accurately detect people and motor vehicles within 20 meters, with a detection rate of over 90%, and can filter other objects, effectively reducing false alarm.

Full screen configuration

**20m+**  
Detection distance

**90%+**  
Detection rate

### Value

#### Reduce light pollution

Reduce light pollution caused by constant illumination from IPC at night.

#### Never miss colorful details of human & vehicle

# Product Family

## EASY Basic

SD Card Slot

Built-in Mic

### Detect intruders in real time

No deterrence

When an event is detected, warm lights turn on to deter the intruder

### Application Scenarios

#### Villa

In poorly lit villas, it can also serve as a streetlight

#### Warehouse

In poorly lit warehouses, it can also function as a lighting fixture

#### Alley

Excellent color performance in low-light environments

#### Store

After the store closes, it can effectively warn potential thieves

#### IPC2122LB-AF28(40)K-DL

- 1/2.9" CMOS sensor
- 2MP 1920 × 1080 30 fps
- Color: 0.005 lux @ F1.6
- Built-in mic & SD card slot

- IR & warm light up to 30m (98ft)
- Human body detection
- IP67

#### IPC2124LB-AF28(40)K-DL

- 1/3.0" CMOS sensor
- 4MP 2560 × 1440 25 fps
- Color: 0.005 lux @ F1.6
- Built-in mic & SD card slot

- IR & warm light up to 30m (98ft)
- Ultra motion detection
- IP67

#### IPC3612LB-AF28K-DL

- 1/2.9" CMOS sensor
- 2MP 1920 × 1080 30 fps
- Color: 0.005 lux @ F1.6
- Built-in mic & SD card slot

- IR & warm light up to 30m (98ft)
- Human body detection
- IP67

#### IPC3614LB-AF28K-DL

- 1/3.0" CMOS sensor
- 4MP 2560 × 1440 25 fps
- Color: 0.005 lux @ F1.6
- Built-in mic & SD card slot

- IR & warm light up to 30m (98ft)
- Ultra motion detection
- IP67

# Product Family

- 1/2.8" CMOS sensor
- 8MP 3840 × 2160 20 fps
- Color: 0.005 lux @ F1.6
- 120dB true WDR
- Built-in mic, speaker & SD card slot
- IR & warm light up to 30m (98ft)
- Ultra motion detection
- Cross line & intrusion detection
- IP67

# ColorHunter with Warm Light

## Enjoy 24/7 Clear & Colorful World with Cozy & Warm Light

### Friendly Lighting LEDs

Warm light LEDs provide a soft glow that's easy on the eyes and minimizes light pollution, enhancing the ambiance with a natural, soothing light. These warm light LEDs preserve colors faithfully, even in dim settings, making them ideal for a comfortable and authentic lighting experience.

### Smart Illumination

During the night, when no event, the IP camera's warm light provides a minimal level of illumination. When events detected, the illumination is instantly enhanced, thus improving visibility and offering clear details. As soon as the object departs from the monitored zone, the light elegantly dims back to its prior soft level.

# Product Family

**IPC2122LB-AF28(40)K-WL**

- 1/2.9" CMOS sensor
- 2MP 1920 × 1080 30 fps
